STORM WATER CONTROL MEASURES
CERTIFICATION OF APPROVAL

PROJECT NAME _____

ADDRESS _____

APN# _____

I, the undersigned California Registered _____ (Engineer, Architect, Geologist and/or Landscape Architect), hereby certify that I or my authorized agent have inspected the Storm Water Control measures (i.e. bioretention, basins, landscapes, grading and drainage contours, storm drain conveyance systems, inlet and overflow elevations, junctions, swales, etc.) required for the approval of the above referenced Project consistent with the approved project Plans, and that such controls were constructed and are now sufficiently stabilized in substantial conformance with the approved grading and/or Improvement Plans. Any revisions made during construction to the originally-approved plans were reviewed and approved by City staff and are shown on the attached Record Drawings, submitted as part of the conditions of approval.
