

Stormwater Control Plan: Tier 2 and 3 Land Development Project

Project ID for Tracking (for City Staff only):

The California Regional Water Quality Control Board for the Central Coast Region (Water Board) adopted the Post-Construction Requirements (PCRs) in July 2013. As of March 6, 2014, development projects that create or replace 2,500 square feet or more of impervious surface (roofs or pavement) must incorporate specified measures to reduce runoff. Projects that create or replace 5,000 square feet or more of impervious surface except for detached single-family homes, and single-family homes that create or replace 15,000 square feet or more of impervious surface, require a more comprehensive Stormwater Control Plan, either Tier 2 or Tier 2 and 3.

The City of Guadalupe is utilizing the County of Santa Barbara Project Clean Water's *Stormwater Technical Guide* found at <http://www.sbprojectcleanwater.org> as a guide in determining which Tier(s) apply to proposed projects.

Please complete the following form and include it with your land use permit application submittal.

Staff will review your site plan to confirm that the following design strategies have been incorporated into your project:

- Limit disturbance of creeks and natural drainage features
- Minimize compaction of highly permeable soils
- Limit clearing and grading of native vegetation at the site to the minimum area needed to build the project, allow access, and provide fire protection
- Minimize impervious surfaces by concentrating improvements on the least-sensitive portions of the site, while leaving the remaining land in a natural undisturbed state

Exemption (check if apply)

- The project creates or replaces less than 2,500 square feet of impervious area.
- Previous land use approval. The project has received land use approval prior to March 6, 2014. List project number:

Step-by-Step Instructions

The steps are:

1. Fill out the Project Data Form (page 2).
2. Prepare a project Stormwater Control Plan Tier 2 and 3 using the County of Santa Barbara's Project Clean Water *Stormwater Control Plan* template that can be found at:
<http://www.sbprojectcleanwater.org/development.aspx?id=76> (Note: not the template for Small (Tier 1) Projects)
3. Complete your submittal, which will accompany your land use application, to include:
 - Project Data Form
 - Stormwater Control Plan (with all Appendices and Attachments)

Step 1: Project Data Form

Project Name / ID Number	
Application Submittal Date [to be verified by staff]	
Applicant Information:	Name: Mailing Address: Phone Number: Email Address:
Project Location [Street Address if available, or intersection and/or APN]	
Project Type and Description <i>[Examples: "Single Family Residence," "Parking Lot Addition," "Retail and Parking"]</i>	
Project Phase No. <i>[If project is being constructed in phases, indicate the phase number. If not, enter "NA"]</i>	
Total Project Site Area (Square Feet)	
Total <u>New</u> Impervious Surface Area (Square Feet) <i>[Sum of currently pervious areas that will be covered with new impervious surfaces]</i>	
Total <u>Replaced</u> Impervious Surface Area (Square Feet) <i>[Sum of currently impervious areas that will be covered with new impervious surfaces.]</i>	
Total <u>Pre-Project</u> Impervious Surface Area (Square Feet)	
Total <u>Post-Project</u> Impervious Surface Area (Square Feet)	
Net Impervious Area <i>[If Tier 2. Equals New + Replaced – (Pre –Post)]</i>	
Watershed Management Zone(s)	
Design Storm Frequency and Depth <i>[If Tier 3]</i>	

Step 2: Prepare Stormwater Control Plan (SCP)

If calculations indicate a Tier 2 and 3 project, prepare and attach a Stormwater Control Plan (SCP) using the County of Santa Barbara's Project Clean Water template that can be found at: <http://www.sbprojectcleanwater.org> . (Note: not the template for Small (Tier 1) Projects.)

The Stormwater Control Plan attachments are also found on the Project Clean Water website, excluding those requiring agreement with the City of Guadalupe. Templates for City of Guadalupe Stormwater Maintenance Agreement, SCP Engineer's Certificate, and other related forms can be found at <http://www.ci.guadalupe.ca.us/index.php/city-government/departments/building-planning>.
